

VIP Visit to Central St Giles

22 October 2013

VIP Visit to Central St Giles

- ◆ In the UK, people spend over 90% of their time in buildings
- ◆ 80% of the buildings around today will still exist in 2050
- ◆ Buildings don't use energy, it's the people in them that drive up demand
- ◆ The built environment is responsible for 50% of carbon emissions

Welcome

Anwar Harland-Khan
Co-Founder and CEO
Sustain Worldwide

- ◆ Welcome to an “agenda setting” space
- ◆ Today you will be hosted by the people who created Central St Giles
- ◆ We will show you how the building was designed and how the project was delivered meeting the needs of users, planning and building controls as well as hitting sustainability targets
