

Associate Membership

Being an Associate Member of Sustain Worldwide:

Demonstrates your pre-eminence as a global leader, and provides you with a respected independent platform from which to join the debate to shape the international sustainability agenda.

- Provides you with quarterly meetings and direct communications with Sustain Worldwide's CEO and board to position your business as a global leader, grow your market share, enhance your reputation and reduce you risk, and drive profitable sustainability to the heart of your business.
- Offers you first option to engage with the commercial network and marketing openings, educational opportunities and technical partnerships being catalysed by Sustain Worldwide, to enable you to leverage the commercial advantages of being a market leader.
- Gives you advance invitations, and complimentary guest invitations, to Sustain Worldwide member events e.g. investor meetings, networking dinners and forums, educational seminars, technical workshops, and direct introductions to other Associates
- Provides you with the first invitation to partner at Sustain Worldwide events, including conferences, seminars and site visits, and introductions to sponsor and media opportunities (e.g. events, national consumer and trade press and marketing).
- Enables you to invite the Sustain Worldwide CEO and board members to participate in or speak at one of your corporate or sustainability events to raise your corporate profile.
- Entitles you to use the Associate Member logo – to demonstrate your commitment to sustainability and to be recognised as a leader in the global sustainability arena.

International and UK-based organisations, charities, educational establishments, government agencies, professional institutions and trade associations where sustainability is core to strategic growth are welcome to join Sustain Worldwide as an Associate Member.

Reciprocity:

Sustain Worldwide welcomes reciprocity with its Associates i.e. To receive from its Associates what we offer to them, as detailed in this document.
